Data Diary - Mapping Assignment

Where was data acquired:

New York City Health Government Website

Data source:

NYC.gov Environment & Health Data Portal - Heat Vulnerability Index by NTA - 2018

Clean up:

- Imported CSV into Excel
- Removed topic, subtopic, indicator name and description, as well as the title
- Removed "Notes Score" column
- Removed "Indicator Name" column
- Removed "Geography ID" column
- Removed "GeoType Name" column
- Changed "Geography" header to "Neighborhood"
- Removed "Year" column
- Removed "How Calculated" from the bottom
- Removed the year from the bottom
- Bolded headers

Confirm/Report:

- To report: The data shows heat vulnerability from lowest to highest. This does not mean that neighborhoods with lower scores are not at risk, as shared by the website.
